FROM THE PRESIDENT

In 2015, UTIKAD became a signatory of the United Nations Global Compact which improves the awareness and continuity of social responsibility in the business world. We are happy to publish the second report of 2019 after the first report that we released in 2017. The primary non-governmental organization and point of reference for the logistics industry with its 458 members, UTIKAD accepts the importance of leaving a world worth to live to the next generations. Aside from that, as a sector, we continue our efforts to reduce the damage to nature.

Being the first non-governmental organization with the "Green Office" certificate in Turkey, UTIKAD set "sustainability" as the main agenda item during the FIATA World Congress organized in 2014 in Istanbul. In this framework, the "Sustainable Logistics Certificate" prepared in cooperation with Bureau Veritas is the first of its kind in the world. With this initiative, we were granted the "Low Carbon Hero" award in the Vth Carbon Summit organized by Sustainable Production and Consumption Association (SÜT-D) last year.

Cognizant of the responsibility that environmental awareness should be transmitted from generation to generation, we are raising awareness of our members also in this matter. We also continue our efforts to integrate land, sea and air transportations to rail and combined transportation which are regarded as the "most ecological" modes of transport.

Furthermore, we feel the honor of being the first non-governmental organization that was awarded the Certificate Of Equality For Women At Work in 2017, we continually endeavor to emphasize employment of women, draw attention to gender equality and become a pioneer in the logistics sector where the number of female employees is high, and to raise awareness on this matter. In 2018, UTIKAD was also granted the "Jury Special Award" in Atlas Logistics Awards organized in the scope of Logitrans Fair for its "efforts on increasing female employment".

In the globalizing world, it is not possible to be insensitive to risks that threaten human life such as poverty, unemployment, exclusion, human rights violations, and social risks that threaten social integrity such as civil wars and terrorism. In addition, producing and using energy resources that are not detrimental for environment, and producing healthy food and ensuring that it is shared equally on a global scale are among the primary steps that we deem important as a non-governmental organization. At this point, we believe that the Global Compact has a collective power that is capable of producing global solutions.

In the future, we will maintain our sensitivity to human rights, environment, working standards and anti-corruption struggle which we have declared to support by signing the Global Compact. At the same time, it is our priority to promote these principles in Turkey through our wide member network. As UTIKAD, we will do what we are bound to do in order to maintain and promote these principles in the future.

Emre ELDENER
Chairman of Board of Directors of UTIKAD

Founded in the year 1986, the Association of the International Transportation and Logistics Services Providers (UTIKAD) is the umbrella organization of more than 450 companies that offer land, air, sea, rail, and combined transportation as well as warehousing services, express cargo and package transportation services, customs brokerage and logistics services in Turkey and abroad.

Being the voice of Turkish Logistics Industry, it is not only representing the logistics companies and freight forwarders in numerous platforms at home, but also conducts certain activities revealing the power and dynamics of the sector.

UTIKAD also serves as the Turkish Representation of International Federation of Freight Forwarders Associations (FIATA), the world's largest NGO of the logistics sector, and has been representing our country as the Senior Vice President of FIATA, and takes part in the working groups.

Being a member of European Association for Forwarding, Transport, Logistics, and Customs Services (CLECAT), UTIKAD is at the same time the founding member of the Economic Cooperation Organization Logistics Provider Association (ECOLPAF). Being the sole logistics NGO representing Turkey, UTIKAD is a member of the Intermodal Transportation and Logistics Working Group of the United Nations Economic Commission for Europe (UNECE).

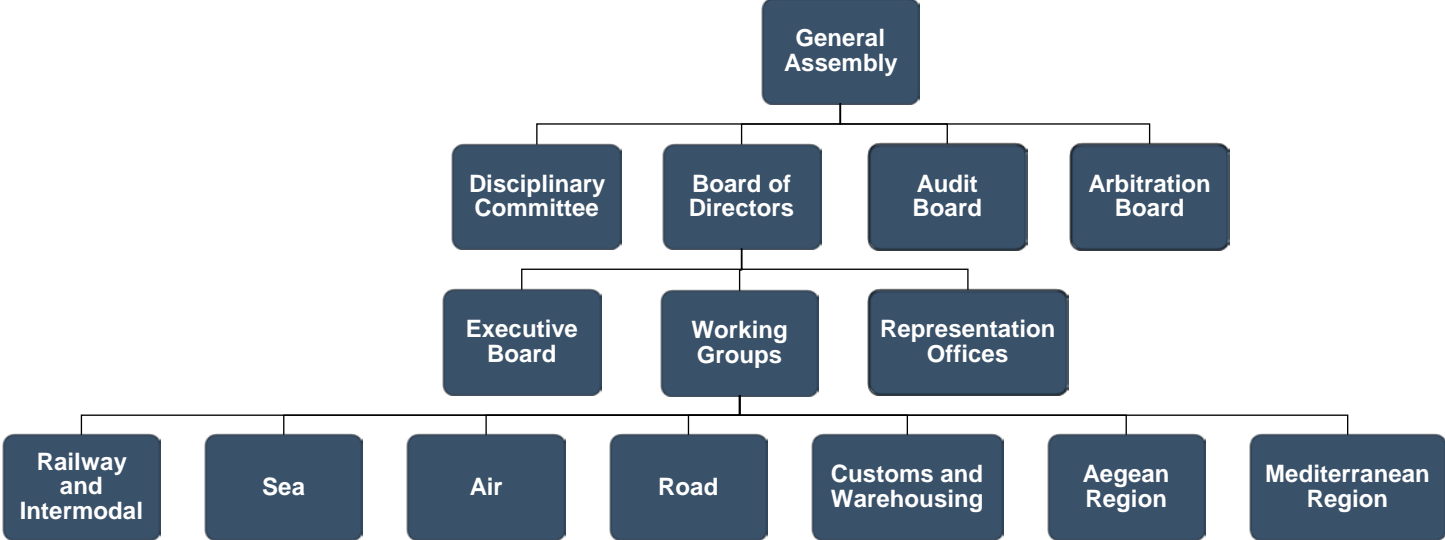

Vision

To lead any formation and development aimed at creation and optimization of a logistic structure and supply chain in Turkey and the world with our rational, principled and responsible approach and the power we derive from our members as the leading logistics and forwarding association of our country.

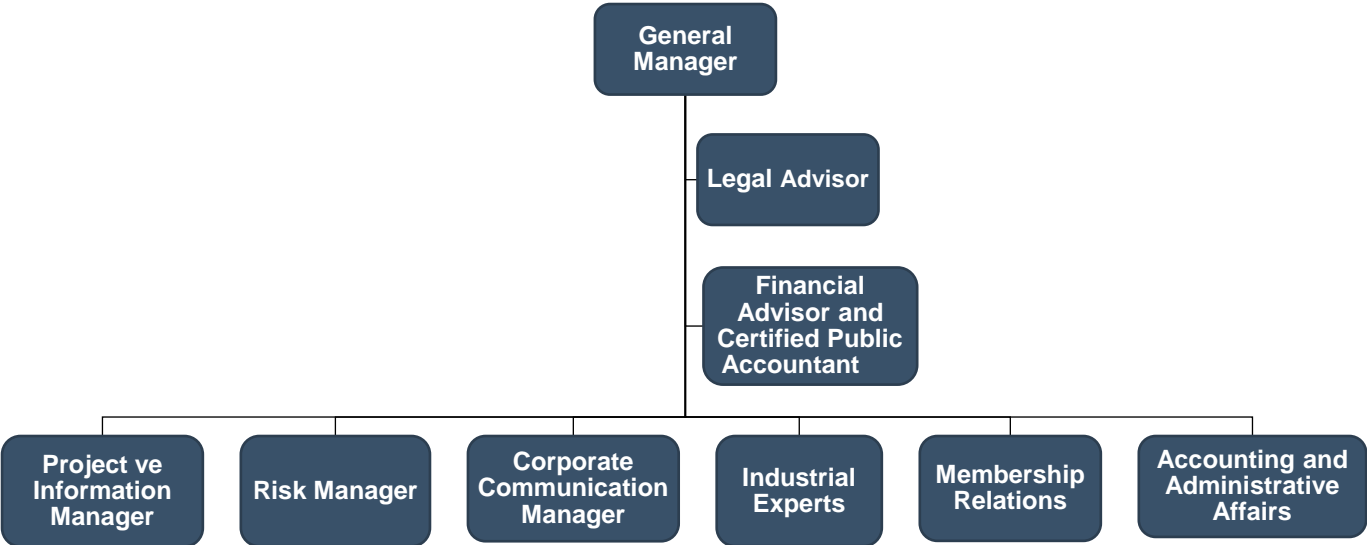

Mission

To represent the Turkish logistics industry and members of the association both in national and international levels in the best manner possible, to provide contribution to sustainable growth of the sector at international standards, and to carry out activities that support development of members of the association.

COMMUNICATION ON ENGAGEMENT

The Association of the International Forwarding and Logistics Service Providers (UTIKAD) applied to Global Compact Turkey and became a signatory of the United Nations Global Compact on February 13, 2015.

Reporting Purpose

The Responsibility Notification Report has been drawn up to announce to the public the responsibilities assumed under the global compact.

Reporting Scope

The scope of the report covers the studies carried out under UN Global Compact principles which UTIKAD commits to be bound with.

Reporting Period

The non-profit organizations participating in the Global Compact global network have to publish a responsibility notification report once every 2 years.

UTIKAD which became a signatory of the global compact in 2015 published the first report in 2017.

While preparing the Responsibility Notification Report for 2019, the activities carried out in the years 2017 and 2018 have been canvassed.

UN Global Compact is a social responsibility approach that invites private sector businesses to comply with 10 core principles based on universally accepted declarations.

The convention signed by the businesses aims to support efforts toward the development objectives, including mainly the Sustainable Development Goals of the United Nations.

10 Principles of the Global Compact

Human Rights

Principle 1: Businesses should support and respect the protection of internationally proclaimed human rights.

Principle 2: Make sure that they are not complicit in human rights abuses.

Labour

Principle 3: Businesses should uphold the freedom of association and the effective recognition of the right to collective bargaining.

Principle 4: The elimination of all forms of forced and compulsory labour.

Principle 5: The effective abolition of child labour.

Principle 6: The elimination of discrimination in respect of employment and occupation.

Environment

Principle 7: Businesses should support a precautionary approach to environmental challenges.

Principle 8: Undertake initiatives to promote greater environmental responsibility.

Principle 9: Encourage the development and diffusion of environmentally friendly technologies.

Anti-Corruption

Principle 10: Businesses should work against corruption in all its forms, including extortion and bribery.

UTIKAD PRINCIPLES AND POLICIES

Below are the principles and policies that have been established by UTIKAD based on the Human Rights, Labour, Environment and Anti-Corruption principles of the Global Compact and that have been used as a basis for various studies within the year.

- We pursue an understanding that excludes all discrimination such as language, religion, race, gender, and a transparent management policy.
- Employment of women and youth is supported.
- Studies are conducted to ensure that the youth receive a high-quality education.
- Initiatives are taken in order to help university students and new graduates to know about the business life and to enhance participation of new graduates in the labour force.
- Practices are carried out within the office to ensure protection of nature with an environmentally friendly approach.
- The companies of the sector are encouraged to adopt practices designed to protect the environment and the world.
- Electronic applications are preferred over paper-based applications, and initiatives that promote digitalization of the sector are embraced.
- We take part in initiatives and working groups aimed at achieving sustainability.
- We struggle against attempts to deceive and corrupt the companies in the sector, and raise awareness.
- We carry out international studies related to fraud, and become a member of working groups of international organizations.

REPORTING PERIOD PROJECTS

The projects carried out by UTIKAD between the years 2017 – 2019 have been evaluated in terms of the principles of the Global Compact, and principles which overlap with the projects of the period have been determined.

Certificate Of Equality For Women At Work

Human Rights & Labour

Certificate Of Equality For Women At Work Ceremony September 26, 2017

UTIKAD has been the first non-governmental organization that won the Certificate Of Equality For Women At Work which is granted to certify the efforts of organizations working to ensure equal rights and opportunities to women at work in cooperation with the Sustainability Academy and Intertek.

The certificate has been awarded after an inspection by Intertek on matters such as policies, employment practices, occupational health and safety practices to ensure gender equality, policies to ensure gender equality in the supply chain, and studies that support women in business and social life.

In the scope of the certificate which was awarded on September 15, 2017, long-winded and measurable targets have been set to promote employment of women, and an "Improvement Plan" designed to strengthen the place of women in business life has been prepared, and projects dealing with affirmative actions toward women developed.

UTIKAD Running Teams in the scope of Istanbul Marathon

Human Rights

39th Istanbul Marathon, UTIKAD Running Team, 12 November 2017

40th Istanbul Marathon UTIKAD Running Team, 11 November 2018

UTIKAD participated in Vodafone Istanbul Marathons organized on 12 November 2017 and 11 November 2018 with running teams composed of its members, and collected donations for non-governmental organizations determined.

UTIKAD Running Team was composed of Members of UTIKAD Board of Directors, Members of UTIKAD Executive Board, and representatives from Members of UTIKAD.

UTIKAD Running Team composed of 33 people was formed to support the Women's Solidarity Society that worked for women who suffer violence in the scope of 39th Istanbul Marathon in 2017.

With the donations collected by the running team, a resource was created for social, legal and psychological support to be provided free of charge to 275 women.

UTIKAD Running Team composed of 24 people was formed to support the "Will you be my Fellow Traveler" campaign organized by "The Spinal Cord Paralytics Association of Turkey " (TOFD) in the scope of 40th Istanbul Marathon in 2018.

In the scope of the campaign, donations were collected to buy battery-operated wheelchairs for paraplegia patients. With the donations collected by the running team, 3 battery-operated wheelchairs were bought and delivered by TOFD to people in need.

Child Alarm Platform

Human Rights

With its announcement in 2018, UTIKAD invited all stakeholders of the logistics industry, including in particular the Turkish Ministry of Interior, Ministry of Transport and Infrastructure, Ministry of National Education, Ministry of Labour, Social Services and Family, and non-governmental organizations, social solidarity societies, municipalities, universities, communication platforms, social communities and media members to cooperate in immediately setting up a "Child Alarm Platform" for the lost children, which would operate under the systematic and secure rules of the security forces.

With the said announcement, a "Child Alarm System" which would operate country-wide, incorporate warning/alarm/tracking systems of the security forces at its center, and would be supported by telecommunication systems to reach the farthest edges of the country, was proposed to be created in cooperation with the members of the platform and stakeholders.

The system aims to inform the entire country to the broadest extent without delay and any bureaucratic hindrance when it is understood that a child is lost, and share the photograph and details of the child with the public.

Hard Working Conditions at Kapıkule Border Gate

Human Rights & Labour

A truck that reaches the border customs site and enters the truck parking area has to wait in long queues before it can enter Bulgaria, and the period of waiting constitutes the largest part of the average period spent at the customs. Truck drivers who have to wait in queues for hours, even days, cannot sleep, eat, and even meet the most humanitarian needs such as the need to use the toilet.

UTIKAD has on many platforms emphasized the hard living conditions that truck drivers encounter while waiting in the queue at Kapıkule border which is Turkey's gate to Europe. The information note containing an analysis of the matter and proposals for solution were submitted to Mr. Fuat Oktay, Assistant to the President, and the Ministry of Commerce of the Republic of Turkey.

UTIKAD Rules For Freight Forwarding and Logistics Services

Labour & Anti-Corruption

The UTIKAD Rules covering the ethics rules for the forwarding and logistics sector and setting forth the liabilities and obligations of the parties have been revised in line with the changing legislation and the methods of doing business, has been named as the UTIKAD Rules for Freight Forwarding and Logistics Services. A working group consisting of UTIKAD Legal Advisors and members supported the rule revision efforts.

The UTIKAD Rules for Freight Forwarding and Logistics Services contain rules applicable to matter such as the logistic processes, the liabilities of the freight forwarders, companies offering logistics services, the customers, and settlement of disputes.

Disclosure Text on the Protection of Personal Data

Labour & Anti-Corruption

An "Information and Disclosure Text" was prepared in 2018 in order to provide information about processing of personal data under the Law on the Protection of Personal Data Numbered 6698 (LPPD).

The "Information and Disclosure Text" prepared by UTIKAD in its capacity as the data controller, describing the circumstances under which the personal data can be processed has been shared with the members and also released on the official website.

Green Office

Environment

UTIKAD has been the first non-governmental organization that was awarded the "Green Office Certificate" in Turkey in the framework of the "Green Office" programme carried out by the World Wildlife Foundation - WWF.

Carrying out its activities as a Green Office since 2013, UTIKAD consumes on average 15,000 (30 packages of) paper sheet, and purchases 4 sets of toners within a year.

REPORTING PERIOD ACTIVITIES

UTİKAD, KAPIKULE'DEKİ KOŞULLARDAN RAHATSIZ

Ekin Tirman

doğru yemek, uyku ve tıynet gibi insani ihtiyaçlarına bile karşın zorluk çeken sofoferlerin durumundan UTİKAD (Uluslararası Taşımacılık ve Lojistik Hizmet Üreticileri Derneği) rahatsız.

UTİKAD Kanyolu Çalışma Grubu, geçtiğimiz günlerde yaptığı toplantıda lojistik sektörünün sorunlarını görüşti. Grup, Kapikule'deki koynoklarla ilgili çalışmalarla hazırladıkları koynokları mekelenin nussaya yatan Çalışma Grubu, TIR sofoferlerinin verdiği kapsamlı bilgiler eşliğinde bir krizi oluşturdu.

TIR sofoferleri, Kapikule'de zaman zaman 35 kilometreye ulaşan koynoklarla karşılaşmakta ve bu durumun baskınca zorunda kalıyor. Bu uzun ve yorucu süreçlerde uyku uyuyamayan, yemekte zorlanan sofoferler, insani ihtiyaçlarına bile karşın yorulan. Uzun yıllardır özünülesey bu sorunu ilgili görüşlerini dile getiren UTİKAD Yürütme Kurulu Üyesi ve Kanyolu Çalışma Grubu Başkanı Ekin Tirman, yaşanan süreci şu şekilde özetledi: "Kapikule'de yaşanan sorunlar, Bulgar tarafında fiziki faktörlerin yetersizliğinden kaynaklanıyor. Türk tarafında yer alan park alanından masraf alınmaya gelene kadar olan bekleme süreleri çok uzun. Bulgar tarafında ise zaman zaman sistemin kapanması, yükün-

LOJİSTİK

UTIKAD İLE SÜRDÜRÜLEBİLİR LOJİSTİK

Lojistik sektöründe özellikle teknolojik dönüşümle birlikte yaşanan değişimleri bizlere kısaca anlatır mısınız?
Lojistik sektöründe verilen hizmetin dünya standartlarında olması gereği teknolojik gelişmelerin ve hızlı ayak işyeri sektörlerini başında lojistik sektörü gelmektedir.
Teknolojik dönüşüm ile birlikte insanın gerçekleştiremediği işleri yaparak gerçek zamanlı olarak izlenebilmekte, RFID sistemleri ile paket içeriğine ilişkin bilgilerin paylaşımı hızlı bir şekilde aktarılabilmektedir ve bu bilgiler işlenebilmekte, basılı evrak yerine elektronik veri işleme teknoloji ile yığılabilir bilgiler paylaşılarak arz talep arasında güvenilir bir şekilde erişilebilmektedir ve stokların eritilmesini hızla elektronik ortamda yük akışları ile esnasız olarak tutulabilmektedir. Lojistik sektörü, teknoloji zincirinde depo yönetiminin araç takibi, sipariş yönetiminin kolaylaştırılması ve birçok alandaki işletmelerin ihtiyaçları teknolojik gelişmeleri uygulamaya geçirmektedir.

Peki, bu değişimi ayak yuvarlamak ve hizmet kalitesini arttırmak adına ne gibi çalışmalar yapıyorsunuz?
UTIKAD her platformda teknolojik ilerlemelerin iş yapış şekillerine adapte edilmesini konusunda işyerine yük getiren bir kurum olmuyor. Tek Pasajer Sistemini

LOJİSTİK SEKTÖRÜNÜN TEKNOLOJİK GELİŞMELERİNE EN HIZLI YAKLAŞAN ÜNİVERSİTELERDEN BİRİ OLDUĞUNU SÖYLEYEN UTIKAD YÖNETİM KURULU BAŞKANI EMRE ELDENİR, "LOJİSTİK SEKTÖRÜ, TEDARİK ZİNCİRİNDE DEPO YÖNETİMİNDE ARAÇ TAKİBİNE, SİPARİŞ YÖNETİMİNDE ONAY SÜREÇLERİNDE KADAR BİRCOK ALANDAKİ İHTİYAÇLARINA TEKNOLOJİK GELİŞMELERİ UYGUNLAŞTIRMA DURUMUNDA" DEDİ.

Özellikle son dönemde çevreye duyarlı, yeşil lojistikye yönelik firmaların çeşitli çalışmaları oluyor. Peki, sizin de buna yönelik çalışmalarınız mevcut mu?
İklim değişikliği, küresel ısınma, doğal kaynakların tükenmesi ve mevcut kaynakların kirlanması gibi etmenler çevresel duyarlılığı artırıcı sebepler olarak karşımıza çıkıyor. Herkesin benzeri her sektörün bir şekilde söz konusu duyarlılığı yönetmek üzere çalışmaları zorlanıyor.
UTIKAD olarak geliştirdiğimiz Sürdürülebilir Lojistik Sertifikası, bu anlamda işyeri firmalarına aktarılan yönünde teşvik ettiğimiz bir

sertifikadır. Söz konusu sertifikada, sürdürülebilirliği yazıcı çevresel duyarlılık çerçevesinde de alınması olup sürdürülebilirliği iş yapış şekillerinden personel yönetimine, çevreden mevzuata ve firmaya yapılan işlemlerle sürdürülebilirlikte katkı sağlama bir çerçevede ele alınmaktadır. Bunun yanı sıra WWF tarafından oluşturulan "Yeşil Ofis" sertifikasına Türkiye'de ilk alan sivil toplum kuruluşu olmamız da konuya verdiği önemimizi göstermektedir.

Son olarak Logitrans Transport Lojistik Fuarı hakkında görüşlerinizi aktarabilir miyiz, fuardan beklentileriniz neler?
Logitrans Transport Lojistik Fuarı dünyada önde gelen lojistik ve taşımacılık firmaları her yıl bir araya getiren, geniş katlı bir fuar olması sebebiyle katılımcıların memnuniyet duyduğunu biliyoruz. Bu fuar bize halihazırda sürdüren işlerimize olan işyerimizi de bir araya getiren ve lojistik sektöründeki gelişmeleri birlikte değerlendirebileceğimiz fırsat vermektedir.
