

Say hello

To the new generation of FIATA BL

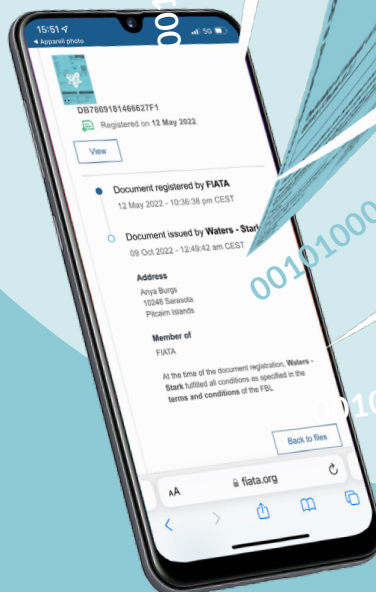

Secured FIATA BL

Available from your systems

Be seen as a trusted partner

The digital FBL:

- Can be issued 24/7 through your TMS/software
- Can be printed or shared in digital format
- Can be verified anytime, anywhere by all stakeholders interacting with the document

They use the secured digital FBL

«The digital FBL is a really good solution for us. We can create, amend and send secured PDF FBLs to our customers within a few minutes, instead of printing and scanning the document. If a customer requests a printed copy, the exact required quantity of documents can be quickly printed. This is a great advantage compared to our competitors who still have to go through a lengthy process to issue House BLs.»
